orhes _____ atog _____ ephse _____

Dot-to-dot

What farmland animal is this?

What food and drink does it give us?

ON THE FARM

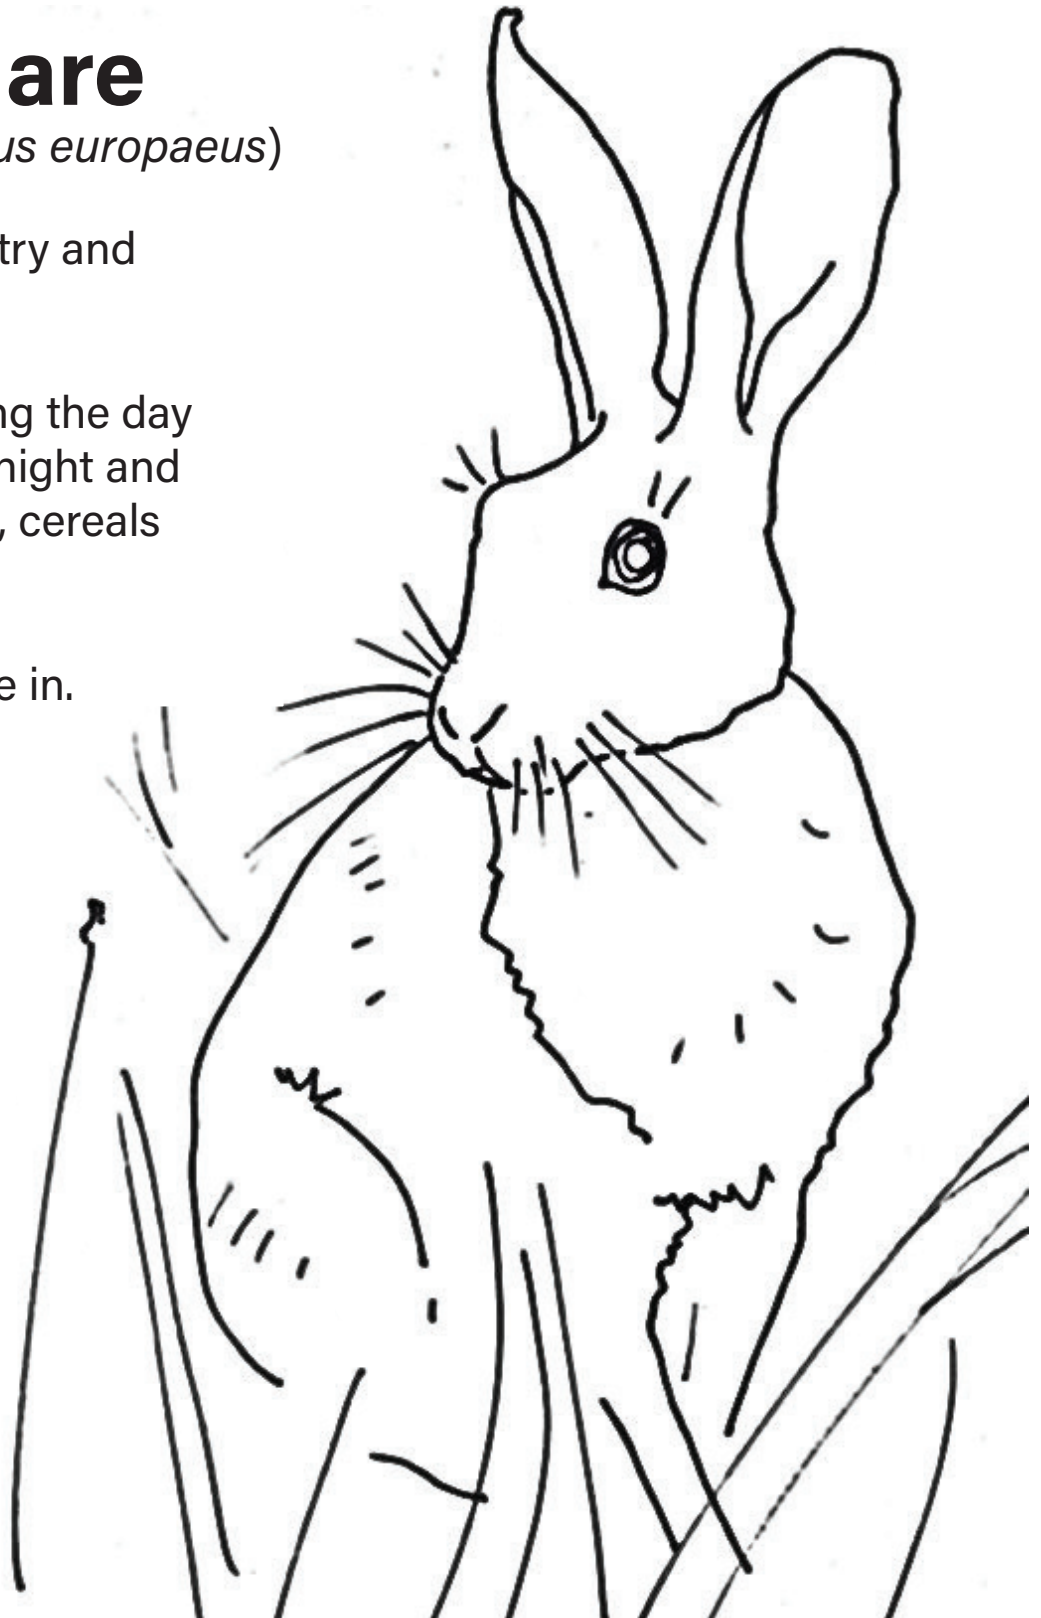

Brown Hare

(Latin name: *Lepus europaeus*)

I live in open country and farmland.

I like to sleep during the day and comes out at night and eat young grasses, cereals and herbs.

Enjoy colouring me in.

Barn owl	Curlew	Magpie
Bittern	Fieldfare	Pheasant
Blackbird	Goldfinch	Robin
Chaffinch	Jay	Starling
Chiffchaff	Lapwing	

Did you know?

In the winter, there is often less food for farmland birds, as fields have been ploughed and there is less to eat. This is called the hungry gap. Farmers and gamekeepers help by growing crops that give birds the seeds they need at this time and by scattering seed on the ground for them to eat.

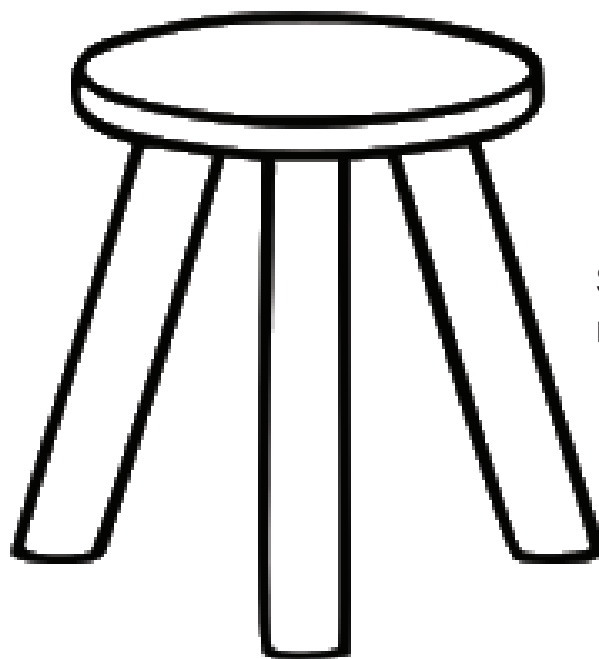

ON THE FARM

The three-legged stool

You might have seen one of these on a farm. We use it to describe the three important things birds need to help them to grow.

A safe place to raise their chicks

Somewhere to make their nest

No predators, like foxes,
who might eat them

What do you think would happen to the stool if we took one leg away?

GAMEBIRDS

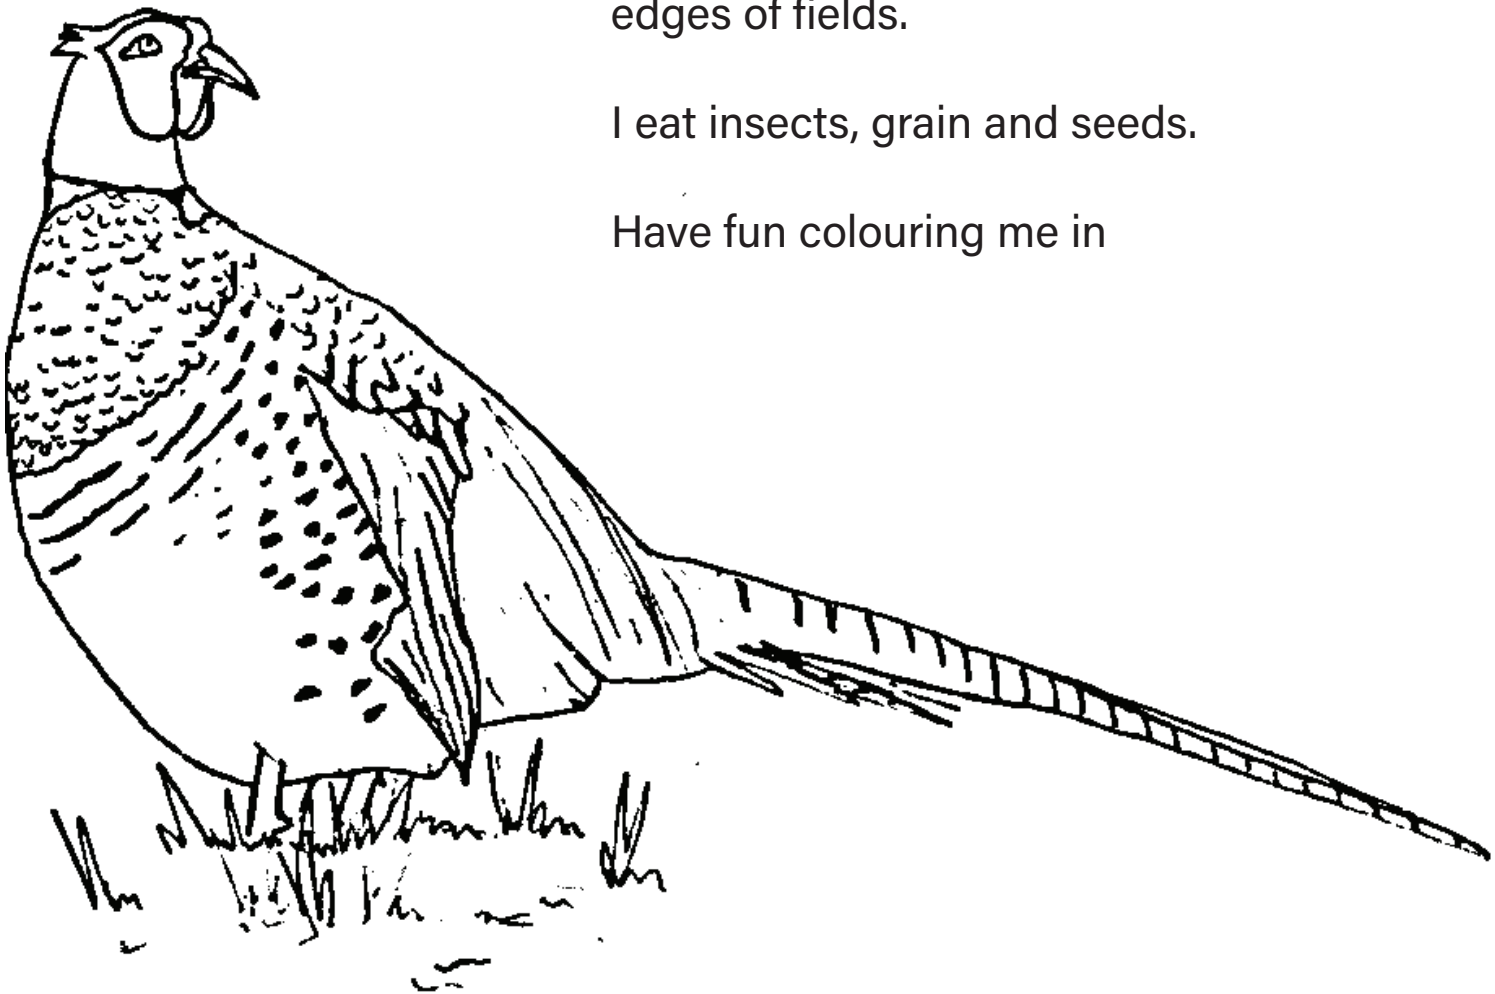

Pheasant

(Latin name: *Phasianus colchicus*)

I'm a cock pheasant who likes living in woods and in rough, grassy areas on the edges of fields.

I eat insects, grain and seeds.

Have fun colouring me in

GAMEBIRDS

Can you find the ten birds hidden in the wordsearch below?

CREEPY CRAWLIES

Can you help the bee find its way to the flower?

What royal name is given to the bee who runs the hive?

- a) Prince b) Queen c) King

CREEPY CRAWLIES

We've jumbled up some creepy crawlies you might know - how many can you spot?

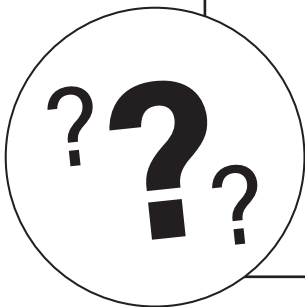

brtyeuflt _____ bemblueeb _____ fraogndly _____

egrailw _____ grasospephr _____

earwhmotr _____ sdiepr _____ woudsoole _____

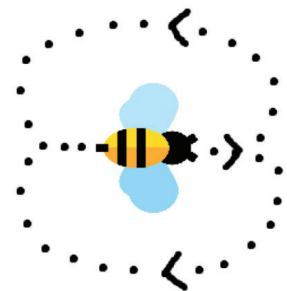

Where do most bees nest?

a) in the ground b) inside flowers c) on trees

Did you know?

Honeybees love to dance. To share information about the best food sources, they perform their 'waggle dance.' When the worker returns to the hive, it moves in a figure-of-eight and waggles its body to indicate the direction of the food source. Can you dance like a bee?

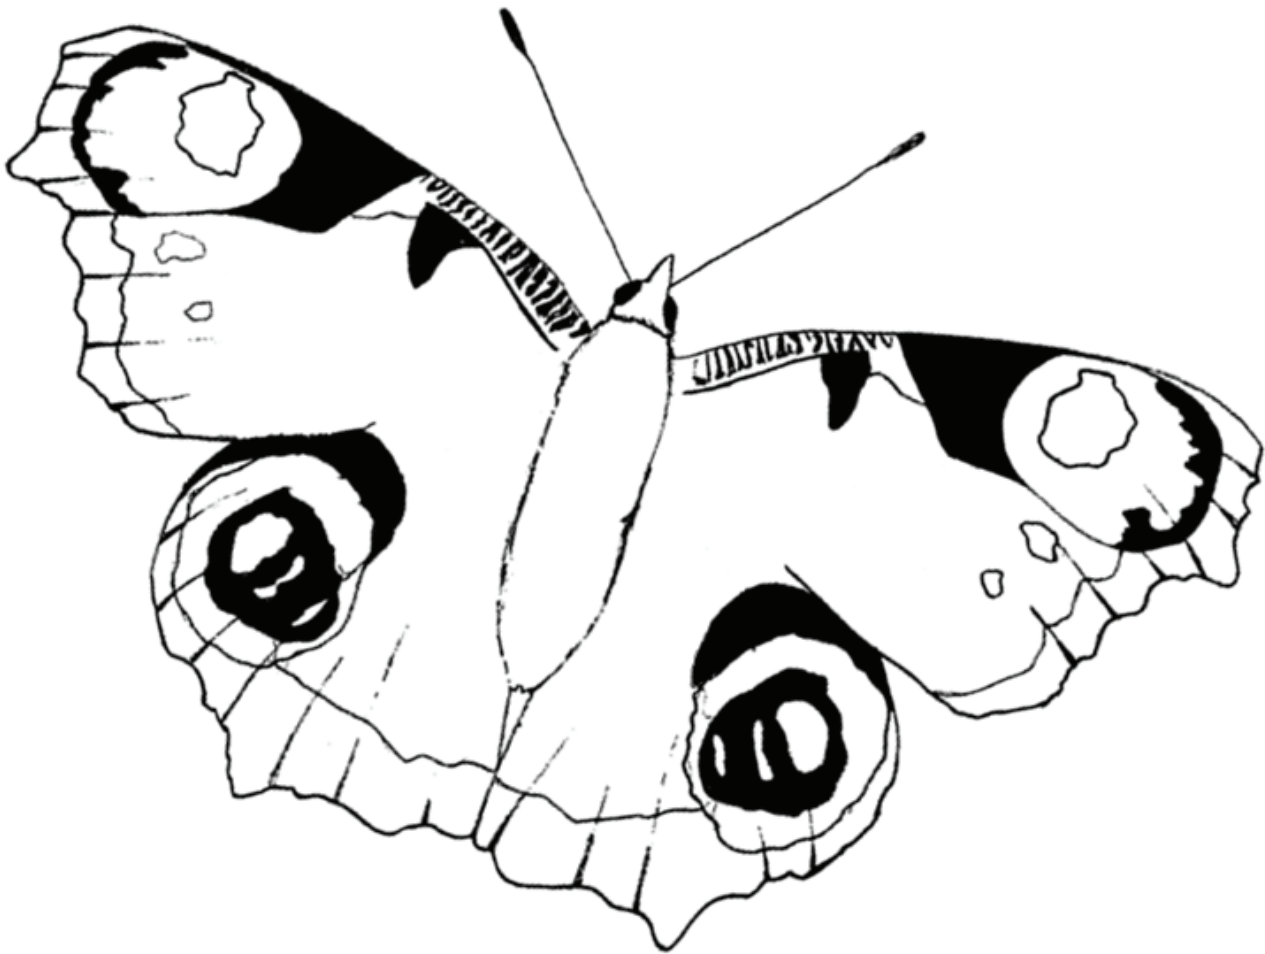

CREEPY CRAWLIES

Peacock Butterfly

(Latin name: *Aglais io*)

You will find me in gardens.
I like to drink nectar from
flowers such as bluebells.
Have fun colouring me in.

RIVERS AND SEA

This salmon needs to work its way back to sea.
Can you help it to find the way?

Did you know?

There are lots of different types of salmon with strange names, including: chum, coho, pink, chinook and sockeye!
